Tools: Git & GitHub, Vercel, Netlify, Render, Docker

Soft Skills: Hardworking, Responsible, Flexible, Team Player

Projects

❖ StreedGrub

[Live-Website](#) GitHub: [FrontEnd](#) | [BackEnd](#)

Tech Stack: NextJS, TypeScript, ShadcnUI, Prisma, Node.js, PostgreSQL, Express.js, JWT, etc.

- Developed a full-stack street food discovery platform with role-based access (User/Admin/Premium), enabling users to post, search, and rate food spots, while admins manage and approve content with Premium visibility control.
- Integrated secure authentication (JWT), real-time post moderation, user voting/comments, and payment gateway (ShurjoPay) for Premium subscription unlocking exclusive content.

❖ CartBazzars

[Live-Website](#) GitHub: [FrontEnd](#) | [BackEnd](#)

Tech Stack: React, TypeScript, Redux, Tailwind CSS, Node.js, Express.js, MongoDB, etc.

- Developed a full-stack Car Shop web application with secure role-based authentication, responsive UI, dynamic filtering, and real-time product management using JWT, REST APIs, and SurjoPay integration.
 - Implemented admin and user dashboards with CRUD operations, smart checkout, and seamless error handling, ensuring a smooth, user-friendly e-commerce experience across devices.
-
